WATCHING FORD 'MELON'

Motor Issues More Tempting to-Traders After Big Dividend Is Declared.

New York, June 5 .- Continued profit taking, together with a belief that the American reply to the German note would, owing to its firmness, have a depressing influence and announcement by the attorney general that the Steel decision would be appealed, resulted in irregularity in the stock market today. Railroad shares and industrials were one to two points lower, but the copper shares and motor stocks

NEW YORK STOCK MARKET. RETAIL TRADING GOOD. SAYS CUNO H. RUDOLPH

Money Market Easier Than a Week Ago-Merchants Find Condi-

tions Favorable. By CUNO H. RUDOLPH,

President Second National Bank. Written Expressly for The Washington Herald. Business here in the past week was good, especially retail trading. The week's results for merchants showed great improvement over those of May. The meeting of the District's demand for taxes slowed trading down somewhat, as did the inclement weather, but both those causes are

now matters of the past.

MRS. CLARA STILLMAN, PRESIDENT OF THE BIRTH CONTROL LEAGUE. WHO ADVOCATES "MONTCLAIR BABY RULES"

Ninety-four babies out of every thousand born in New York died last year.

Conly thirty-eight babies died in Montclair, N. J., out of every thousand born during the same period. Much credit for this low rate of infant mortality in the latter city is given the Montclair Day Nursery, which prescribes the following decade of baby health rules:

1. Give a baby pure milk and watch its feeding very closely.

2. Keep everything connected with a baby absolutely clean. Cleanliness in the house accounts for a baby's health. Untidy babies are usually sick babies.

3. Never let a baby get chilled. Keep its hands and feet warm.

4. Regulate a baby's day by the clock. Everything about its wants should be attended to at schedule time.

5. Diminish a baby's food the minute signs of illness appear. Most babies are overfed anyway.

6. Weigh a baby every week until it is a year old. Its weight is an index to its health.

7. Every mother should get daily outdoor exercise. It means better health for her babies. for her babies.

S. Every baby should be "mothered" more and mauled less. Bables thrive on cuddling, but they can get along on a lot less kissing.

Don't amuse or play with your baby too much. Its regular daily routine is all the stimulation its little brain needs at first.

10. Don't let too many different people take care of the baby. Even members of the same family make a baby nervous if they fuss around it too much.
